

# KIDS MATTER IN 3/4N!

In 3/4N, we have also read the book 'Have You Filled a Bucket Today?' Everybody in 3/4N created their own bucket for our classroom. Over the past two weeks, we have been filling each others' buckets with encouragement, kind words and notes to thank those who have put a smile on our face.

This is important in 3/4N as we know that filling someone's bucket makes them feel good, and makes us feel nice too!

During circle time we have also been discussing things that have happened in our week and how they have made us feel. We have been sharing what has been the lowest part of our week, and what has been the highest (made us feel AMAZING). The kids have been talking about the problems that they have encountered and discovering that they are not alone in feeling this way. Students have also been offering words of advice for situations that have taken place, and we have discussed how a kind word or helping hand at this time would have made all the difference. It has also been wonderful to share in each other's happy moments, with some of us even realising that WE were the cause of someone else's AMAZING moment!
