

App Focus with Mr Van

The apps on the RMPS essential app list are required for school and we ask you to make sure that you have installed all of the apps onto your child's iPad. Although some of the apps are specific to certain units, there are some apps that are used all the time. Over the next few weeks I am going to highlight some of the apps that are used regularly in the classrooms.

Book Creator

Book Creator is an app where you can write, edit, create and publish books that showcase a variety of learning from school. From authoring a picture story book with text, pictures, video or audio to creating a portfolio of work dedicated to a certain subject area, the possibilities are endless! Book Creator is simple and effective to use for students to present their work. The finished product ensures an ebook that is interactive, is able to be shared and allows the reader to gasp in amazement! It caters for a variety of skill and age ranges. This app is a must have for your child's iPad!
