

Playgroup

Term 4 - Week 3

Fun in the Garden

Do you have some old gumboots? How about asking an adult to drill some holes in the bottom of the boot, then fill with soil and plant some flowers or herbs in the boot.

Did you know that you can regrow vegetables by cutting the top or bottoms of. Then place in a tray or dish of water and watch them grow.

Grow some grass seeds in a clear plastic cup. Make a face and once the grass has grown you can give it a haircut and watch it grow again.

Craft Time

DIY GARDEN PROJECT FOR KIDS **GNOMES**

How to make the Gnomes

1. Buy some air drying clay or they could be made with salt dough(cook the dough)
2. Shape the clay/dough into your gnome shape.
3. Once the clay or salt dough is hard enough paint on your gnomes face and clothes.
4. Pop your gnomes in your garden or in an indoor potted plant.
5. Make a few extra ones to give to your neighbour or Grandparents.

Olivia Plants a Garden

Instead of a book today I thought you might enjoy watching Olivia Plants a Garden

Hope you have had lots of fun today! If you have time send me a picture of you enjoying your garden.
