Bobbing for apples is a Halloween tradition that dates back to the 18th century! But it's so fun and full of laughs. I'm sure everyone has had a go at this, but in case you've never set this game up....

- Find a suitable tub.
- Fill the tub with cool water.
- Float several apples in the water.
- Select the order of players.
- Catch an apple with your teeth. ...
- Keep your hands behind your back while bobbing.
- Keep track of how long it takes each player to get their apple. You can give a time limit per player, to keep things moving at a fun pace.
- Select the winner, whoever got their apple the quickest!

Music Time

Hope you have had lots of fun!

Please send in photos of your costumes, craft or pumpkin lanterns.
